## Synopsis :

This book is an manual that opens up an area that functions as an interesting, supplementary design niche within today's fashion design. Collected by two Dutch experts in this craftsmanship: Annette Duburg and Rixt van der Tol. It includes the historical context of draping, contemporary examples by fashion designers, a large section on all aspects of draping (of all clothing components on the most common variations) and the use of draping by well-known fashion designers from 1900 to the present day.
