Synopsis :

From the Back Cover Sams Teach Yourself SQL in 10 Minutes has established itself as the gold standard for introductory SQL books, offering a fast-paced accessible tutorial to the major themes and techniques involved in applying the SQL language. Forta's examples are clear and his writing style is crisp and concise. As with earlier editions, this revision includes coverage of current versions of all major commercial SQL platforms. New this time around is coverage of MySQL, and PostgreSQL. All examples have been tested against each SQL platform, with incompatibilities or platform distinctives called out and explained. Read more About the Author Ben Forta is Macromedia's Senior Technical Evangelist and has almost 20 years of experience in the computer industry in product development, support, training, and product marketing. Ben is the author of the best-selling ColdFusion Web Application Construction Kit and Advanced ColdFusion Development (both published by Que), Sams Teach Yourself Regular Expressions in 10 Minutes (in this same series), and also books on Flash, Java, WAP, Windows 2000, and other subjects. He has extensive experience in database design and development, has implemented databases for several highly successful commercial software programs, and is a frequent lecturer and columnist on Internet and database technologies. Born in London, England, and educated in London, New York, and Los Angeles, Ben now lives in Oak Park, Michigan, with his wife Marcy and their seven children.
